

Paul Rakhman | US Citizen | Minneapolis, MN | 507.581.3142 | eslpaul@gmail.com

Profile Summary

Web Developer with 3+ years of experience in front-end/UI, back-end, and databases. Strong IT foundation with bachelor's and master's degrees in information technology. Build custom websites for diverse clients (tattoo studios, construction firms, educators). Quick learner, adept at adopting new technologies.

Technical Skills

- Proficient in JavaScript (React, Node.js, Express.js), with expertise in scalable front-end architecture and solid logic implementation.
- Experienced with data structures and algorithms for robust component development. Skilled in Python (Flask), chatbot integration, API consumption, and backend services (Supabase, AWS).
- Experienced with version control (Git, GitHub), deployment (Netlify, Vercel, Docker), form handling (Formspree), and AI-assisted coding tools (Copilot, Cursor).
- Strong troubleshooting abilities, honed through hands-on coding

Soft Skills

- Effective communicator with experience collaborating cross-functionally (clients, designers, developers).
- Adaptable problem-solver, thriving in iterative environments.
- Strong attention to detail, ensuring polished deliverables.
- Quick learner, proactive in mastering new concepts. Comfortable presenting work and iterating based on feedback.

Relevant Work History

Web Developer

- Sogdiana Tattoo Studio (2025 - Present)

Built and maintain a responsive session booking website for a Boston-based tattoo artist, enabling on-the-go client communication and bookings.

- Boston Modern Bath LLC (2025 - Present)

Developed a website for a construction business, allowing mobile contact and inquiries.

IELTS House LLC (2018 - 2020)

Built web applications for ESL learners. Worked as a test prep tutor.

Education

Master of Science in IT | Capella University | Dec 2025
